

BMW Plant Spartanburg

April 6, 2009

Tony Pugh
Executive Vice President
FABARC Steel
111 Meadow Lane
Oxford, Alabama 36203

Dear Mr. Pugh,

BMW wishes to thank FABARC Steel for their excellent performance fabricating, delivering and erecting the building steel for the New Paint Shop and Assembly North project. FABARC's role as sub supplier for the fabrication and erection of the conveyor bridge steel is also recognized and appreciated. FABARC was able to deliver these jobs on time, safely, and within budget in spite of numerous changes to the basic footprint of the building. FABARC's cooperation and flexibility made this 17,000 ton project a success. Again thanks for a job well done.

Best regards,

A handwritten signature in blue ink that reads 'Mike Bates'.
